

STYLIZED CHARACTER CUSTOMIZABLE/MODULAR CLOTHES DOCUMENTATION

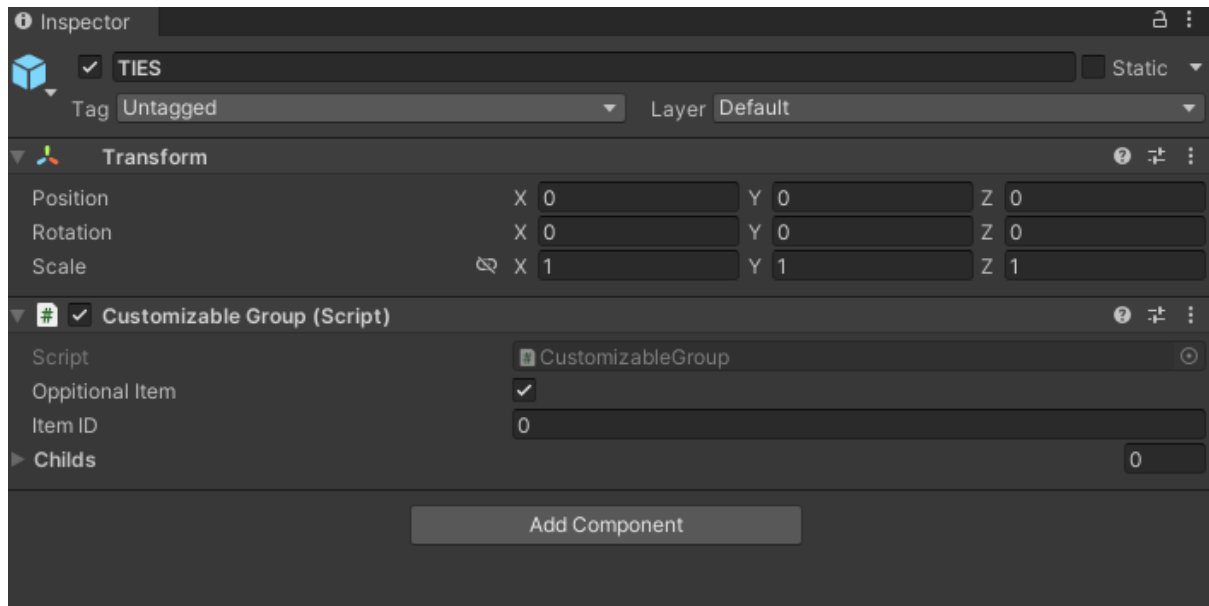

How to insert new customization items?

In the image above it shows all the customizable groups, just duplicate the last one and edit its name and delete the items that are inside and put the new ones, remembering they need

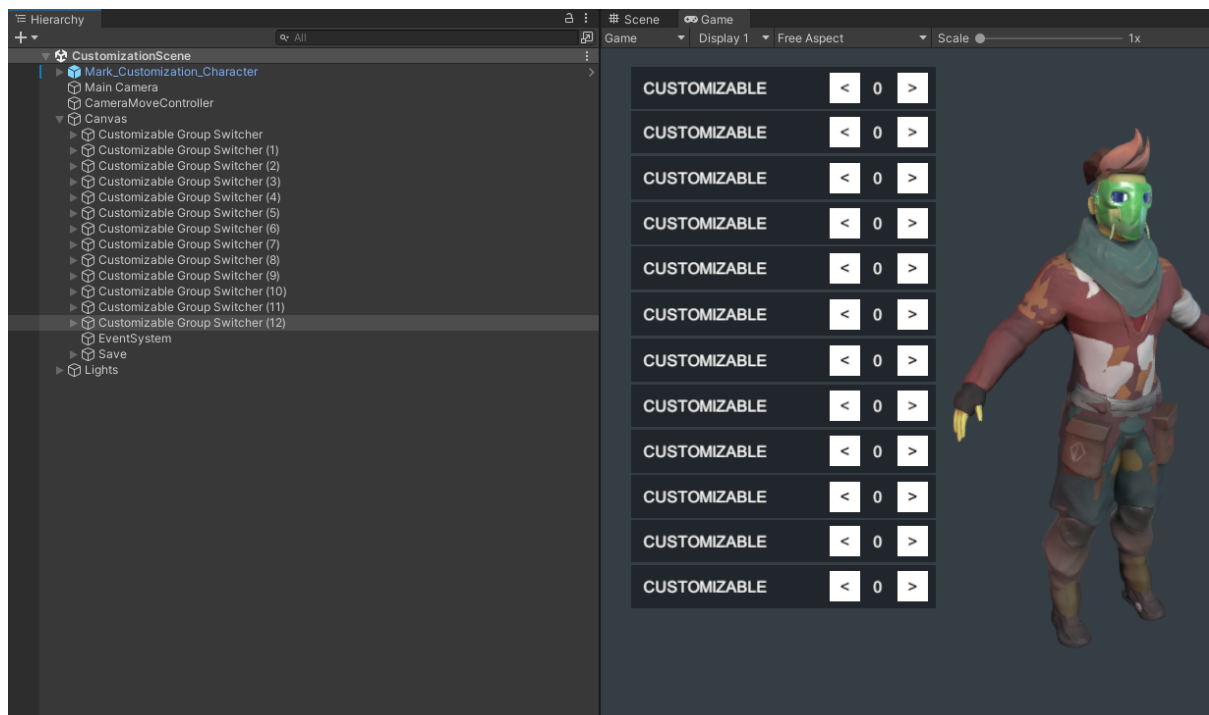

Each group needs to have the Customizable ID script!

if it is an optional item, check the bool "optional item"

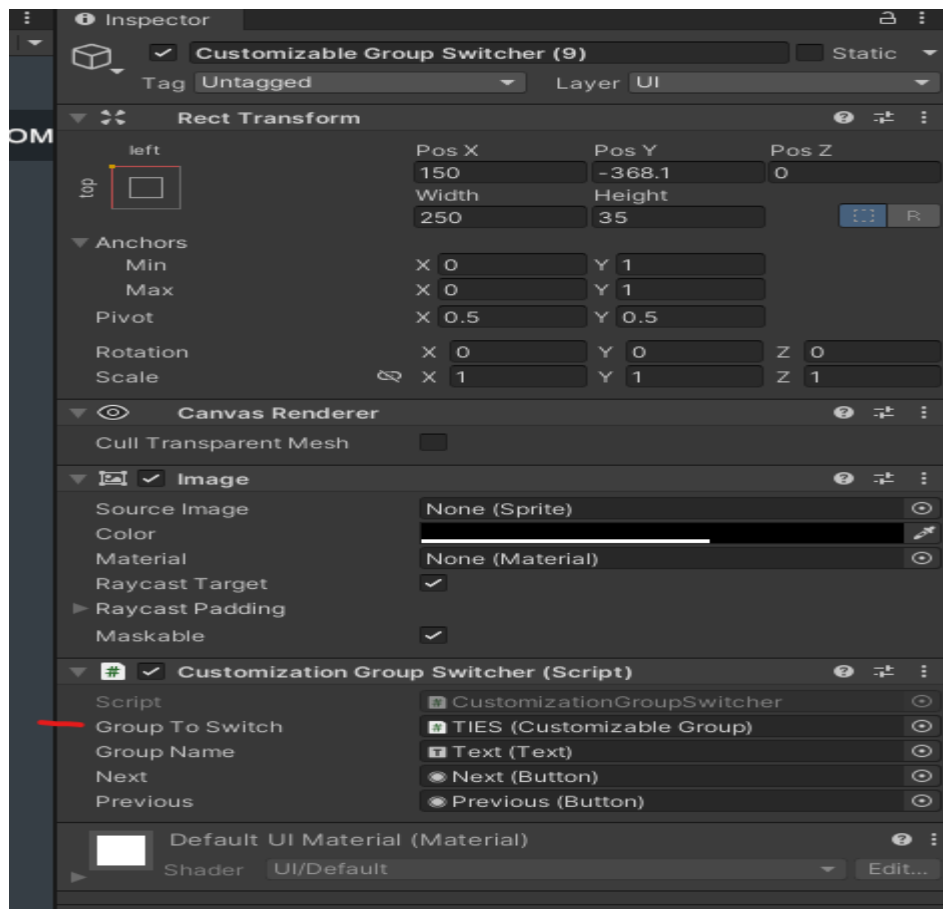

How to put the new group on the canvas?

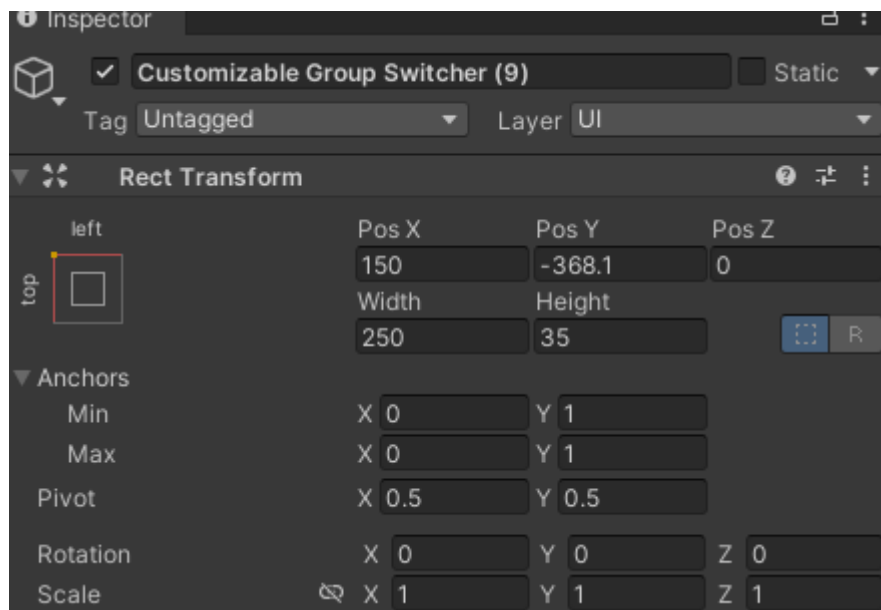

Duplicate the (Customizable Group Switcher)

Now link the group that created the (Group to Switch)

Remember to reposition the new canvas to leave behind the duplicated one!

- If you have any problems or need help access this link
(<https://www.facebook.com/markusart3d>) it's my personal page send me a message and I'll help!

If you don't have access to this facebook my email is markusartcontact@gmail.com

Or it can be discord: MARKUSART#2024

Thank you very much for the purchase!
